FAQ

[2] Pattern therapy for patients with neuromuscular disorders was first developed by neurosurgeon Temple Fay in the 1940s..
[10] Pattern therapy drew upon the ideas and work of ideas of neurophysiologist Temple Fay, former head of the Department of Neurosurgery at Temple University School of Medicine and president of the Philadelphia Neurological Society.. Glenn Doman Trisomy 21 (Down Syndrome) Children with trisomy 21 are brain-injured children.

[15] Glenn Doman described his own personal philosophy for treating patients as stemming from his WWII veteran officer motto: 'Leave no injured behind.. The Institutes consider brain damage, intellectual impairment, 'mental deficiency', cerebral palsy, epilepsy, autism, athetosis, attention deficit hyperactivity disorder, 'developmental delay', and Down syndrome as conditions encompassing 'brain injury', the term favored by IAHP.. orgThe Institutes for The Achievement of Human Potential (IAHP), founded in 1955 by Glenn Doman and Carl Delacato, provide literature on and teaches patterning therapy (motor learning), which the Institutes promote as improving the 'neurologic organization' of 'brain injured' and mentally impaired children through a variety of programs, including diet and exercise.

[13] This philosophy follows very closely to the Japanese Suzuki method for violin, which is also taught at the institute in addition to the Japanese language itself.. [1][2] It is headquartered in Philadelphia, Pennsylvania with offices and programs offered in several other countries.. [12] The methodology of their study was later criticized Philosophy[edit]The philosophy of the Institutes consists of several interrelated beliefs: that every child has genius potential, stimulation is the key to unlocking a child's potential, teaching should commence at birth, the younger the child, the easier the learning process, children naturally love to learn, parents are their child's best teacher, teaching and learning should be joyous and teaching and learning should never involve testing.. [14]Programs[edit]Programs for brain-injured children[edit]IAHP's program begins with a five-day seminar for the parents of 'brain injured' children, because the program is carried out by parents at their homes..) for 'brain-injured' children included:Patterning – manipulation of limbs and head in a rhythmic fashionCreeping – forward bodily movement with the abdomen in contact with the floorCrawling – forward bodily movement with the abdomen raised from the floorReceptive stimulation – visual, tactile and auditory stimulationExpressive activities – e.
